AUTHOR INDEX

Abbs, J. H. See Barlow & Abbs. JSHR, 1983(26), 616-621.

Abbs, J. H. See Barlow et al. JSHR, 1983(26), 283-288.

Ahroon, W. A. See Salvi & Ahroon. JSHR, 1983(26), 629-632.

Allen, C. M. See Gerken et al. JSHR, 1983(26), 256-262.

Anderson, J. L. See Brasseur & Anderson. JSHR, 1983(26), 349-355.

Andrews, G. See O'Dwyer et al. JSHR, 1983(26), 162-170.

Baken, R. J., McManus, D. A., & Cavallo, S. A. Prephonatory chest wall posturing in stutterers. JSHR, 1983(26), 444-450.

Barefoot, S. M. See Whitehead & Barefoot. JSHR, 1983(26), 185-194.

Barlow, S. M., & Abbs, J. H. Force transducers for the evaluation of labial, lingual, and mandibular function in disarthria. JSHR, 1983(26), 616-621.

Barlow, S. M., Cole, K. J., & Abbs, J. H. A new head-mounted lip-jaw movement transduction system for the study of motor speech disorders. JSHR, 1983(26), 283-288.

Baumgartner, J. M., & Brutten, G. J. Expectancy and heart rate as predictors of the speech performance of stutterers. JSHR, 1983(26), 383-388.

Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. JSHR, 1983(26), 304-314.

Belanger, S. See Speaks et al. JSHR, 1983(26), 378-382.

Bennett, S. A 3-year longitudinal study of school-aged children's fundamental frequencies. JSHR, 1983(26), 137-141.

Benson, P. J. See Sharf & Benson. JSHR, 1983(26), 525-530.

Bernthal, J. E. See Smit & Bernthal. JSHR, 1983(26), 486-500.

Bernthal, J. E. See Smit & Bernthal. JSHR, 1983(26), 124-136.

Bond, Z. S., & Korte, S. S. Children's spontaneous and imitative speech: An acoustic-phonetic analysis. JSHR, 1983(26), 464-467.

Borden, G. J. Initiation versus execution time during manual and oral counting by stutterers. JSHR, 1983(26), 389-396.

Brasseur, J. A., & Anderson, J. L. Observed differences between direct, indirect, and direct/indirect videotaped supervisory conferences. JSHR, 1983(26), 349-355.

Broen, P. A., Strange, W., Doyle, S. S., & Heller, J. H. Perception and production of approximant consonants by normal and articulation-delayed preschool children. JSHR, 1983(26), 601-608.

Brutten, G. J. A reply to Costello and (Roemer) Hurst (Letter). JSHR, 1983(26), 155-156.

Brutten, G. J. See Baumgartner & Brutten. JSHR, 1983(26), 383-388.

Casby, M. W., & Ruder, K. F. Symbolic play and early language development in normal and mentally retarded children. JSHR, 1983(26), 404-411.

Catts, H. W., & Jensen, P. J. Speech timing of phonologically disordered children: Voicing contrasts of initial and final stop consonants. JSHR, 1983(26), 501-510.

Cavallo, S. A. See Baken et al. JSHR 1983(26), 444-450.

Chapman, K. See Rowan et al. JSHR, 1983(26), 97-106.

Chesterman, M. See Speaks et al. JSHR, 1983(26), 378-382.

Chumlea, W. C. See Roche et al. JSHR, 1983(26), 151-154.

Ciampi, A. See Stoicheff et al. JSHR, 1983(26), 482-485.

Cleeland, C. See Zimmerman et al. JSHR, 1983(26), 315-318.

Cole, K. J. See Barlow et al. JSHR, 1983(26), 283-288.

Collins, M., Rosenbek, J. C., & Wertz, R. T. Spectrographic analysis of vowel and word duration in apraxia of speech. JSHR, 1983(26), 224-230.

Conrad-Armes, D. See Tyler & Conrad-Armes. JSHR, 1983(26), 59-72.

Conture, E. G. See Mahshie & Conture. JSHR, 1983(26), 550-559.

Costello, J. M., & Hurst, M. R. A reply to Brutten (Letter). JSHR, 1983(26), 156-159.

Courtright, I. C. See Courtright & Courtright. JSHR, 1983(26), 412-417.

SUBJECT INDEX

Hearing

NATURE OF HEARING AND ITS DISORDERS

Normal Auditory Systems

Iris pigmentation and AC thresholds. Roche, A. F., Mukherjee, D., Chumlea, W. C., & Siervogel, R. M. JSHR, 1983(26), 151-154.
Three models of temporal summation evaluated using normal-hearing and hearing-impaired subjects. Gerken, G. M., Gunnarson, A. D., & Allen, C. M. JSHR, 1983(26), 256-262.

Auditory and Other Otic Pathologies

Dichotic listening performance, language impairment, and lesion location in aphasic listeners. Niccum, N., Rubens, A. B., & Selnes, O. A. JSHR, 1983(26), 42-49.
Midfrequency dysfunction in listeners having high-frequency sensorineural hearing loss. Humes, L. E. JSHR, 1983(26), 425-435.
The determination of tinnitus loudness considering the effects of recruitment. Tyler, R. S., & Conrad-Armes, D. JSHR, 1983(26), 59-72.
Three models of temporal summation evaluated using normal-hearing and hearing-impaired subjects. Gerken, G. M., Gunnarson, A. D., & Allen, C. M. JSHR, 1983(26), 256-262.
Tinnitus and neural activity. Salvi, R. J., & Ahroon, W. A. JSHR, 1983(26), 629-632.

Hearing Loss and Deafness

Airflow characteristics of fricative consonants produced by normally hearing and hearing-impaired speakers. Whitehead, R. L., & Barefoot, S. M. JSHR, 1983(26), 185-194.
Comparison of reading comprehension task performance for deaf and hearing subjects. Davey, B., LaSasso, C., & Macready, G. JSHR, 1983(26), 622-628.
Effects of parental deafness and early exposure to manual communication on the cognitive skills, English language skill, and field independence of young deaf adults. Parasnis, I. JSHR, 1983(26), 588-594.
Letter to the editor: A clarification. Nicholls, G. JSHR, 1983(26), 320.
Midfrequency dysfunction in listeners having high-frequency sensorineural hearing loss. Humes, L. E. JSHR, 1983(26), 425-435.
The annoyance of tinnitus and the noise required to mask it. Penner, M. J. JSHR, 1983(26), 73-76.
The determination of tinnitus loudness considering the effects of recruitment. Tyler, R. S., & Conrad-Armes, D. JSHR, 1983(26), 59-72.
Three models of temporal summation evaluated using normal-hearing and hearing-impaired subjects. Gerken, G. M., Gunnarson, A. D., & Allen, C. M. JSHR, 1983(26), 256-262.
Variability in matches to subjective tinnitus. Penner, M. J. JSHR, 1983(26), 263-267.
Visual evoked-response correlates of speech-reading performance in normal-hearing adults: A replication and factor analytic extension. Samar, V. J., & Sims, D. G. JSHR, 1983(26), 2-9.

Effects of Noise and Issues in Hearing

Midfrequency dysfunction in listeners having high-frequency sensorineural hearing loss. Humes, L. E. JSHR, 1983(26), 425-435.
Variability in matches to subjective tinnitus. Penner, M. J. JSHR, 1983(26), 263-267.

ASSESSMENT OF HEARING

Psychoacoustics

Effects of talker and of listener bias on stimulus dominance in dichotic listening. Speaks, C., Chesterman, M., & Belanger, S. JSHR, 1983(26), 378-382.
Midfrequency dysfunction in listeners having high-frequency sensorineural hearing loss. Humes, L. E. JSHR, 1983(26), 425-435.
The annoyance of tinnitus and the noise required to mask it. Penner, M. J. JSHR, 1983(26), 73-76.
The determination of tinnitus loudness considering the effects of recruitment. Tyler, R. S., & Conrad-Armes, D. JSHR, 1983(26), 59-72.

Acoustical Instruments, Measurements, and Standards

Assessment of electromagnetic characteristics of the Willeford Central Auditory Processing Test Battery. Shea, S. L., & Raffin, M. J. JSHR, 1983(26), 18-21.
Threshold inaccuracies in an elderly clinical population: Ear canal collapse as a possible cause. Randolph, L. J., & Schow, R. L. JSHR, 1983(26), 54-58.

Diagnostic Audiology—General

Assessment of electromagnetic characteristics of the Willeford Central Auditory Processing Test Battery. Shea, S. L., & Raffin, M. J. JSHR, 1983, 1983(26), 18-21.
Threshold inaccuracies in an elderly clinical population: Ear canal collapse as a possible cause. Randolph, L. J., & Schow, R. L. JSHR, 1983(26), 54-58.

Specific Diagnostic Techniques and Approaches

ELECTROPHYSIOLOGIC

Effects of stimulus repetition rate and frequency on the auditory brainstem response in normal, cochlear-impaired, and VIII nerve/brainstem-impaired subjects. Fowler, C. G., & Noffsinger, D. JSHR, 1983(26), 560-567.
Iris pigmentation and AC thresholds. Roche, A. F., Mukherjee, D., Chumlea, W. C., & Siervogel, R. M. JSHR, 1983(26), 151-154.

PEDIATRIC

Assessment of electromagnetic characteristics of the Willeford Central Auditory Processing Test Battery. Shea, S. L., & Raffin, M. J. JSHR, 1983(26), 18-21.

SPEECH

Assessment of electromagnetic characteristics of the Willeford Central Auditory Processing Test Battery. Shea, S. L., & Raffin, M. J. JSHR, 1983(26), 18-21.

Comparison of reading comprehension task performance for deaf and hearing subjects. Davey, B., LaSasso, C., & Macready, G. JSHR, 1983(26), 622-628.

Contextual effects in the measurement of hearing-impaired speakers' intelligibility. Sitler, R. W., Schiavetti, N., & Metz, D. E. JSHR, 1983(26), 30-34.

Dichotic listening performance, language impairment, and lesion location in aphasic listeners. Niccum, N., Rubens, A. B., & Selnes, O. A. JSHR, 1983(26), 42-49.

MASKING

The annoyance of tinnitus and the noise required to mask it. Penner, M. J. JSHR, 1983(26), 73-76.

The determination of tinnitus loudness considering the effects of recruitment. Tyler, R. S., & Conrad-Armes, D. JSHR, 1983(26), 59-72.

INTERVENTION

Habilitation, Rehabilitation, and Education

Audiologic correlates of hearing handicap in the elderly. Weinstein, B. E., & Ventry, I. M. JSHR, 1983(26), 148-151.

Deaf speakers' laryngeal behavior. Mahshie, J. J., & Conture, E. G. JSHR, 1983(26), 000-000.

Letter to the editor: A clarification. Nicholls, G. JSHR, 1983(26), 320.

The intelligibility of deaf speech to experienced and inexperienced listeners. McGarr, N. S. JSHR, 1983(26), 451-458.

Hearing Aids and Other Prostheses

Performance characteristics for hearing aid microphone versus telephone and telephone/telecoil reception modes. Tannahill, J. C. JSHR, 1983(26), 195-201.

Language

NATURE OF NORMAL LANGUAGE

Language Development

Performative and presuppositional skills in language-disordered and normal children. Rowan, L. E., Leonard, L. B., Chapman, K., & Weiss, A. L. JSHR, 1983(26), 97-106.

Speech identification in Spanish- and English-learning 2-year-olds. Oller, D. K., & Eilers, R. E. JSHR, 1983(26), 50-53.

Symbolic play and early language development in normal and mentally retarded children. Casby, M. W., & Ruder, K. F. JSHR, 1983 (26), 404-411.

The contribution of perceptual learning to performance on the Repetition Task. Tomblin, J. B., & Quinn, M. A. JSHR, 1983(26), 369-372.

Training generative repertoires within agent-action-object miniature linguistic systems with children. Goldstein, H. JSHR, 1983(26), 76-89.

Language Differences and Different Languages

Speech identification in Spanish- and English-learning 2-year-olds. Oller, D. K., & Eilers, R. E. JSHR, 1983(26), 50-53.

Verbal Learning and Memory

Training generative repertoires within agent-action-object miniature linguistic systems with children. Goldstein, H. JSHR, 1983(26), 76-89.

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders

Acoustic patterns of apraxia of speech. Kent, R. D., & Rosenbek, J. C. JSHR, 1983(26), 231-249.

Dichotic listening performance, language impairment, and lesion location in aphasic listeners. Niccum, N., Rubens, A. B., & Selnes, O. A. JSHR, 1983(26), 42-49.

Hemisphericity in aphasic language recovery. Klingman, K. C., & Sussman, H. M. JSHR, 1983(26), 249-256.

The effects of presentation modality upon learning in a comprehension task using oral, manual, and dual mode stimulus cues. Karlan, G. R., Lloyd, L. L., & Fristoe, M. JSHR, 1983(26), 436-443.

Language Disorders in Children

Dichotic listening in good and poor readers. Dermody, P., Mackie, K., & Katsch, R. JSHR, 1983(26), 341-348.

Language and speech behaviors of children with undue lead absorption: A review of the literature. Mayfield, S. A. JSHR, 1983(26), 362-368.

Mental rotation abilities in language-disordered children. Johnston, J. R., & Ellis Weismer, S. JSHR, 1983(26), 397-403.

Performative and presuppositional skills in language-disordered and normal children. Rowan, L. E., Leonard, L. B., Chapman, K., & Weiss, A. L. JSHR, 1983(26), 97-106.

Picture naming in language-impaired children. Leonard, L., Nippold, M., Kail, R., & Hale, C. JSHR, 1983(26), 609-615.

Symbolic play and early language development in normal and mentally retarded children. Casby, M. W., & Ruder, K. F. JSHR, 1983(26), 404-411.

The contribution of perceptual learning to performance on the Repetition Task. Tomblin, J. B., & Quinn, M. A. JSHR, 1983(26), 369-372.

The perception of nonverbal vocal cues of emotional meaning by language-disordered and normal children. Courtright, J. A., & Courtright, I. C. JSHR, 1983(26), 412-417.

Learning Disabilities

Language and speech behaviors of children with undue lead absorption: A review of the literature. Mayfield, S. A. JSHR, 1983(26), 362-368.

Mental rotation abilities in language-disordered children. Johnston, J. R., & Ellis Weismer, S. JSHR, 1983(26), 397-403.

Language Disorders in Mental Retardation

Symbolic play and early language development in normal and mentally retarded children. Casby, M. W., & Ruder, K. F. JSHR, 1983(26), 404-411.

The effects of presentation modality upon learning in a comprehension task using oral, manual, and dual mode stimulus cues. Karlan, G. R., Lloyd, L. L., & Fristoe, M. JSHR, 1983(26), 436-443.

The influence of production mode on the recall of signs in normal adult subjects. Lloyd, L. L., & Doherty, J. E. JSHR, 1983(26), 595-600.

Training generative repertoires within agent-action-object miniature linguistic systems with children. Goldstein, H. JSHR, 1983(26), 76-89.

ASSESSMENT AND INTERVENTION

Assessment

Comparison of reading comprehension task performance for deaf and hearing subjects. Davey, B., LaSasso, C., & Macready, G. JSHR, 1983(26), 622-628.

Symbolic play and early language development in normal and mentally retarded children. Casby, M. W., & Ruder, K. F. JSHR, 1983(26), 404-411.

Physiological Measures of Language Function

Visual evoked-response correlates of speech-reading performance in normal-hearing adults: A replication and factor analytic extension. Samar, V. J., & Sims, D. G. JSHR, 1983(26), 2-9.

Intervention

The influence of production mode on the recall of signs in normal adult subjects. Lloyd, L. L., & Doherty, J. E. JSHR, 1983(26), 595-600.

Training generative repertoires within agent-action-object miniature linguistic systems with children. Goldstein, H. JSHR, 1983(26), 76-89.

Nonspeech Communication Systems

The effects of presentation modality upon learning in a comprehension task using oral, manual, and dual mode stimulus cues. Karlan, G. R., Lloyd, L. L., & Fristoe, M. JSHR, 1983(26), 436-443.

The influence of production mode on the recall of signs in normal adult subjects. Lloyd, L. L., & Doherty, J. E. JSHR, 1983(26),595-600.

The perception of nonverbal vocal cues of emotional meaning by language-disordered and normal children. Courtright, J. A., & Courtright, I. C. JSHR, 1983(26), 412-417.

Language Comprehension by Elderly Adults

The effects of time compression and time expansion on passage comprehension by elderly listeners. Schmitt J. F. JSHR, 1983(26), 373-377.

Speech

NATURE OF NORMAL SPEECH

Development of Speech and Voice

A 3-year longitudinal study of school-aged children's fundamental frequencies. Bennett, S. JSHR, 1983(26), 137-141.

A cinefluorographic investigation of repeated fluent productions of stutterers in an adaptation procedure. Zimmermann, G. N., & Hanley, J. M. JSHR, 1983(26), 35-42.

Airflow characteristics of stop-plosive consonant productions of normal-speaking children. Trullinger, R. W., & Emanuel, F. W. JSHR, 1983(26), 202-208.

Perceptual organization of speech sounds by infants. Hillenbrand, J. JSHR, 1983(26), 268-282.

Anatomy and Physiology of the Adult Speech System

A cinefluorographic investigation of repeated fluent productions of stutterers in an adaptation procedure. Zimmermann, G. N., & Hanley, J. M. JSHR, 1983(26), 35-42.

Assessment of oral-motor reflexes in stutterers and normal speakers: Preliminary observa-

tions. Smith, A., & Luschei, E. S. JSHR, 1983(26), 322-328.
Chest wall vibrations in singers. Sundberg, J. JSHR, 1983(26), 329-340.
Control of upper airway structures during nonspeech tasks in normal and cerebral-palsied subjects: EMG findings. O'Dwyer, N. J., Neilson, P. D., Guitar, B. E., Quinn, P. T., & Andrews, G. JSHR, 1983(26), 162-170.
Effects of practice and instructional set on the measurement of lingual vibrotactile thresholds. Fucci, D., Small, L. H., & Petrosino, L. JSHR, 1983(26), 289-293.
Force transducers for the evaluation of labial, lingual, and mandibular function in disarthria. Barlow, S. M., & Abbs, J. H. JSHR, 1983(26), 616-621.
Hemisphericity in aphasic language recovery. Klingman, K. C., & Sussman, H. M. JSHR, 1983(26), 249-256.
Magnitude estimation of oral cavity distances. Siegel, G. M., & Hanlon, J. M. JSHR, 1983(26), 574-578.
Oral vs. manual tapping with delayed auditory feedback as measures of cerebral dominance. Elman, J. L. JSHR, 1983(26), 106-110.
Prephonatory chest wall posturing in stutterers. Baken, R. J., McManus, D. A., & Cavallo, S. A. JSHR, 1983(26), 444-450.
Some comments on "Articulatory dynamics of fluent utterances of stutterers and nonstutterers" (Letter). Goldsmith, H. JSHR, 1983(26), 319-320.
The effects of varying lower-lip displacement on upper-lip movements: Implications for the coordination of speech movements. Folkins, J. W., & Linville, R. N. JSHR, 1983(26), 209-217.
Voice onset time in young and 70-year-old women. Neiman, G. S., Klich, R. J., & Shuey, E. M. JSHR, 1983(26), 118-123.

Perception of Speech

Deaf speakers' laryngeal behavior. Mahshie, J. J., & Conture, E. G. JSHR, 1983(26), 550-559.
Dichotic listening performance, language impairment, and lesion location in aphasic listeners. Niccum, N., Rubens, A. B., & Selnes, O. A. JSHR, 1983(26), 42-49.
Effects of talker and of listener bias on stimulus dominance in dichotic listening. Speaks, C., Chesterman, M., & Belanger, S. JSHR, 1983(26), 378-382.
Letter to the editor: A clarification. Nicholls, G. JSHR, 1983(26), 320.
Oral vs. manual tapping with delayed auditory feedback as measures of cerebral dominance. Elman, J. L. JSHR, 1983(26), 106-110.
Perception and production of approximant consonants by normal and articulation-delayed preschool children. Broen, P. A., Strange, W., Doyle, S. S., & Heller, J. H. JSHR, 1983(26), 601-608.
Perception of intonational contrasts in alaryngeal speech. Gandour, J., & Weinberg, B. JSHR, 1983(26), 142-148.
Perception of lexical stress in alaryngeal speech. Gandour, J., Weinberg, B., & Garzione, B. JSHR, 1983(26), 418-424.
Perceptual organization of speech sounds by infants. Hillenbrand, J. JSHR, 1983(26), 268-282.
Performance of articulation-disordered children on language and perception measures. Smit, A. B., & Bernthal, J. E. JSHR, 1983(26), 124-136.
Speech identification in Spanish- and English-learning 2-year-olds. Oller, D. K., & Eilers, R. E. JSHR, 1983(26), 50-53.
The accuracy of formant frequency measurements: A comparison of spectrographic analysis and linear prediction. Monsen, R. B., & Engebretson, A. M. JSHR, 1983(26), 89-97.
The effects of time compression and time expansion on passage comprehension by elderly listeners. Schmitt, J. F. JSHR, 1983(26), 373-377.
The intelligibility of deaf speech to experienced and inexperienced listeners. McGarr, N. S. JSHR, 1983(26), 451-458.

Speech and Voice Disorders

Articulation and Resonance Disorders

A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. JSHR, 1983(26), 304-314.
Acoustic patterns of apraxia of speech. Kent, R. D., & Rosenbek, J. C. JSHR, 1983(26), 231-249.
An accelerometric measure as a physical correlate of perceived hypernasality in speech. Horii, Y. JSHR, 1983(26), 476-480.
Comparison of speech pathologists' and naive subjects' identification of synthesized /r-w/ continua. Sharf, D. J., & Benson, P. J. JSHR, 1983(26), 525-530.
Formant frequency fluctuation as an index of motor steadiness in the vocal tract. Gerratt, B. R. JSHR, 1983(26), 297-304.
Perception and production of approximant consonants by normal and articulation-delayed preschool children. Broen, P. A., Strange, W., Doyle, S. S., & Heller, J. H. JSHR, 1983(26), 601-608.
Perception of distorted "r" sounds in the synthesized speech of children and adults. Sharf, D. J., & Ohde, R. N. JSHR, 1983(26), 516-524.
Performance of articulation-disordered children on language and perception measures. Smit, A. B., & Bernthal, J. E. JSHR, 1983(26), 124-136.
Phonological correlates of middle-ear involvement in speech-delayed children: A methodological note. Shriberg, L. D., & Smith, A. J. JSHR, 1983(26), 293-297.
Spectrographic analysis of vowel and word duration in apraxia of speech. Collins, M., Rosenbek, J. C., & Wertz, R. T. JSHR, 1983(26), 224-230.
Speech timing of phonologically disordered children: Voicing contrast of initial and final stop consonants. Catts, H. W., & Jensen, P. J. JSHR, 1983(26), 501-510.
Voicing contrasts and their phonological implications in the speech of articulation-disordered children. Smit, A. B., & Bernthal, J. E. JSHR, 1983(26), 486-500.

Craniofacial and Other Anomalies

Auditory and visual feedback of nasalization using a modified accelerometric method. Horii, Y., & Monroe, N. JSHR, 1983(26), 472-475.

Physiologically Based Speech Disorders

A new head-mounted lip-jaw movement transduction system for the study of motor speech disorders. Barlow, S. M., Cole, K. J., & Abbs, J. H. JSHR, 1983(26), 283-288.
Airflow characteristics of fricative consonants produced by normally hearing and hearing-impaired speakers. Whitehead, R. L., & Barefoot, S. M. JSHR, 1983(26), 185-194.
Contextual effects in the measurement of hearing-impaired speakers' intelligibility. Sitler, R. W., Schiavetti, N., & Metz, D. E. JSHR, 1983(26), 30-34.
Control of upper airway structures during nonspeech tasks in normal and cerebral-palsied subjects: EMG findings. O'Dwyer, N. J., Neilson, P. D., Guitar, B. E., Quinn, P. T., & Andrews, G. JSHR, 1983(26), 162-170.
Formant frequency fluctuation as an index of motor steadiness in the vocal tract. Gerratt, B. R. JSHR, 1983(26), 297-304.
Hemisphericity in aphasic language recovery. Klingman, K. C., & Sussman, H. M. JSHR, 1983(26), 249-256.
In agreement with Goldsmith (Letter). Zimmermann, G. N. JSHR, 1983(26), 320.
Language and speech behaviors of children with undue lead absorption: A review of the literature. Mayfield, S. A. JSHR, 1983(26), 362-368.
Spectrographic analysis of vowel and word duration in apraxia of speech. Collins, M., Rosenbek, J. C., & Wertz, R. T. JSHR, 1983(26), 224-230.
The Indians have many terms for it: Stuttering among the Bannock-Shoshoni. Zimmermann, G., Liljeblad, S., Frank, A., & Cleeland, C. JSHR, 1983(26), 315-318.

Stuttering and Other Fluency Disturbances

A cinefluorographic investigation of repeated fluent productions of stutterers in an adaptation procedure. Zimmermann, G. N., & Hanley, J. M. JSHR, 1983(26), 35-42.
A reply to Brutten (Letter). Costello, J. M., & Hurst, M. R. JSHR, 1983(26), 156-159.
A reply to Costello and (Roemer) Hurst (Letter). Brutten, G. J. JSHR, 1983(26), 155-156.
Acoustic analysis of stutterers' fluent speech before and after therapy. Metz, D. E., Samar, V. J., & Sacco, P. R. JSHR, 1983(26), 531-536.
Direct magnitude estimation and interval scaling of stuttering severity. Schiavetti, N., Sacco, P. R., Metz, D. E., & Sitler, R. W. JSHR, 1983(26), 568-573.
Effects of segment and pause manipulations on the identification of treated stutterers. Prosek, R. A., & Runyan, C. M. JSHR, 1983(26), 510-516.
Expectancy and heart rate as predictors of the speech performance of stutterers. Baumgartner, J. M., & Brutten, G. J. JSHR, 1983(26), 383-388.
In agreement with Goldsmith (Letter). Zimmermann, G. N. JSHR, 1983(26), 320.
Initiation versus execution time during manual and oral counting by stutterers. Borden, G. J. JSHR, 1983(26), 389-396.
Linguistic processing and reaction time differences in stutterers and nonstutterers. Hand, C. R., & Haynes, W. O. JSHR, 1983(26), 181-185.
Phonatory and manual reaction times of stuttering and nonstuttering children. Till, J. A., Reich, A., Dickey, S., & Seiber, J. JSHR, 1983(26), 171-180.
Prephonatory chest wall posturing in stutterers. Baken, R. J., McManus, D. A., & Cavallo, S. A. JSHR, 1983(26), 444-450.
Relation between finger reaction time and voice reaction time in stuttering and nonstuttering children and adults. Cross, D. E., & Luper, H. L. JSHR, 1983(26), 356-361.
Some comments on "Articulatory dynamics of fluent utterances of stutterers and nonstutterers" (Letter). Goldsmith, H. JSHR, 1983(26), 319-320.
The effect of manipulating phonation duration on stuttering. Ingham, R. J., Montgomery, J., & Ulliana, L. JSHR, 1983(26), 579-587.
The Indians have many terms for it: Stuttering among the Bannock-Shoshoni. Zimmermann, G., Liljeblad, S., Frank, A., & Cleeland, C. JSHR, 1983(26), 315-318.

Voice and Other Laryngeal Disorders

A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. JSHR, 1983(26), 304-314.

Deaf speakers' laryngeal behavior. Mahshie, J. J., & Conture, E. G. JSHR, 1983(26), 550-559.

Evaluations of Blom-Singer tracheoesophageal puncture prostheses performance. Moon, J. B., Sullivan, J., & Weinberg, B. JSHR, 1983(26), 459-464.

Perception of intonational contrasts in alaryngeal speech. Gandour, J., & Weinberg, B. JSHR, 1983(26), 142-148.

Perception of lexical stress in alaryngeal speech. Gandour, J., Weinberg, B., & Garzione, B. JSHR, 1983(26), 418-424.

Phonatory and manual reaction times of women with idiopathic spasmodic dysphonia. Reich, A., & Till, J. JSHR, 1983(26), 10-18.

The irradiated larynx and voice: A perceptual study. Stoicheff, M. L., Ciampi, A., Passi, J. E., & Fredrickson, J. M. JSHR, 1983(26), 482-485.

Assessment and Intervention

Screening

Formant frequency fluctuation as an index of motor steadiness in the vocal tract. Gerratt, B. R. JSHR, 1983(26), 297-304.

Assessment

A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. JSHR, 1983(26), 304-314.

Direct magnitude estimation and interval scaling of stuttering severity. Schiavetti, N., Sacco, P. R., Metz, D. E., & Sitler, R. W. JSHR, 1983(26), 568-573.

Evaluations of Blom-Singer tracheoesophageal puncture prostheses performance. Moon, J. B., Sullivan, J., & Weinberg, B. JSHR, 1983(26), 459-464.

Force transducers for the evaluation of labial, lingual, and mandibular function in disarthria. Barlow, S. M., & Abbs, J. H. JSHR, 1983(26), 616-621.

Formant frequency fluctuation as an index of motor steadiness in the vocal tract. Gerratt, B. R. JSHR, 1983(26), 297-304.

Acoustic Measures of Speech and Voice

A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. JSHR, 1983(26), 304-314.

Acoustic patterns of apraxia of speech. Kent, R. D., & Rosenbek, J. C. JSHR, 1983(26), 231-249.

Automatic analysis of voice fundamental frequency and intensity using a Visi-Pitch. Horii, Y. JSHR, 1983(26), 467-471.

Children's spontaneous and imitative speech: An acoustic-phonetic analysis. Bond, Z. S., & Korte, S. S. JSHR, 1983(26), 464-467.

Contextual effects in the measurement of hearing-impaired speakers' intelligibility. Sitler, R. W., Schiavetti, N., & Metz, D. E. JSHR, 1983(26), 30-34.

Effects of physiological aging on selected acoustic characteristics of voice. Ramig, L. A., & Ringel, R. L. JSHR, 1983(26), 22-30.

Formant frequency fluctuation as an index of motor steadiness in the vocal tract. Gerratt, B. R. JSHR, 1983(26), 297-304.

Selected acoustic characteristics of pathologic and normal speakers: A reanalysis (Letter). Kempster, G. B., & Kistler, D. J. JSHR, 1983(26), 159-160.

Selected acoustic characteristics of pathologic and normal speakers: A reply to Kempster and Kistler. Murry, T., & Doherty, E. T. JSHR, 1983(26), 160.

The accuracy of formant frequency measurements: A comparison of spectrographic analysis and linear prediction. Monsen, R. B., & Engebretson, A. M. JSHR, 1983(26), 89-97.

Voice onset time in young and 70-year-old women. Neiman, G. S., Klich, R. J., & Shuey, E. M. JSHR, 1983(26), 118-123.

Instrumentation for Diagnosis, Treatment, and Research

A new head-mounted lip-jaw movement transduction system for the study of motor speech disorders. Barlow, S. M., Cole, K. J., & Abbs, J. H. JSHR, 1983(26), 283-288.

A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. JSHR, 1983(26), 304-314.

Airflow characteristics of stop-plosive consonant productions of normal-speaking children. Trullinger, R. W., & Emanuel, F. W. JSHR, 1983(26), 202-208.

Auditory and visual feedback of nasalization using a modified accelerometric method. Horii, Y., & Monroe, N. JSHR, 1983(26), 472-475.

Automatic analysis of voice fundamental frequency and intensity using a Visi-Pitch. Horii, Y. JSHR, 1983(26), 467-471.

Evaluations of Blom-Singer tracheoesophageal puncture prostheses performance. Moon, J. B., Sullivan, J., & Weinberg, B. JSHR, 1983(26), 459-464.

Force transducers for the evaluation of labial, lingual, and mandibular function in disarthria. Barlow, S. M., & Abbs, J. H. JSHR, 1983(26), 616-621.

The irradiated larynx and voice: A perceptual study. Stoicheff, M. L., Ciampi, A., Passi, J. E., & Fredrickson, J. M. JSHR, 1983(26), 482-485.

Nonspeech Communication Systems

The perception of nonverbal vocal cues of emotional meaning by language-disordered and normal children. Courtright, J. A., & Courtright, I. C. JSHR, 1983(26), 412-417.

Speech or Voice Production

A cinefluorographic investigation of repeated fluent productions of stutterers in an adaptation procedure. Zimmermann, G. N., & Hanley, J. M. JSHR, 1983(26), 35-42.

Airflow characteristics of fricative consonants produced by normally hearing and hearing-impaired speakers. Whitehead, R. L., & Barefoot, S. M. JSHR, 1983(26), 185-194.

Airflow characteristics of stop-plosive consonant productions of normal-speaking children. Trullinger, R. W., & Emanuel, F. W. JSHR, 1983(26), 202-208.

"Compensatory articulation" under conditions of reduced afferent information: A dynamic formulation. Kelso, J. A. S., & Tuller, B. JSHR, 1983(26), 217-224.

Contextual effects in the measurement of hearing-impaired speakers' intelligibility. Sitler, R. W., Schiavetti, N., & Metz, D. E. JSHR, 1983(26), 30-34.

Evaluations of Blom-Singer tracheoesophageal puncture prostheses performance. Moon, J. B., Sullivan, J., & Weinberg, B. JSHR, 1983(26), 459-464.

Oral vs. manual tapping with delayed auditory feedback as measures of cerebral dominance. Elman, J. L. JSHR, 1983(26), 106-110.

Some comments on "Articulatory dynamics of fluent utterances of stutterers and nonstutterers" (Letter). Goldsmith, H. JSHR, 1983(26), 319-320.

The effects of varying lower-lip displacement on upper-lip movements: Implications for the coordination of speech movements. Folkins, J. W., & Linville, R. N. JSHR, 1983(26), 209-217.

The intelligibility of deaf speech to experienced and inexperienced listeners. McGarr, N. S. JSHR, 1983(26), 451-458.

The influence of stress, position, and utterance length on the pressure characteristics of English /p/ and /b/. Flege, J. E. JSHR, 1983(26), 111-118.

Hemispheric Dominance

Hemisphericity in aphasic language recovery. Klingman, K. C., & Sussman, H. M. JSHR, 1983(26), 249-256.

Oral vs. manual tapping with delayed auditory feedback as measures of cerebral dominance. Elman, J. L. JSHR, 1983(26), 106-110.

Professional and General Scientific Issues

Professional Affairs

Incidence and Prevalence of Communication Disorders

Threshold inaccuracies in an elderly clinical population: Ear canal collapse as a possible cause. Randolph, L. J., & Schow, R. L. JSHR, 1983(26), 54-58.

Research Issues and Methodology

Comparison of reading comprehension task performance for deaf and hearing subjects. Davey, B., LaSasso, C., & Macready, G. JSHR, 1983(26), 622-628.

Effects of practice and instructional set on the measurement of lingual vibrotactile thresholds. Fucci, D., Small, L. H., & Petrosino, L. JSHR, 1983(26), 289-293.

Language and speech behaviors of children with undue lead absorption: A review of the literature. Mayfield, S. A. JSHR, 1983(26), 362-368.

Phonological correlates of middle-ear involvement in speech-delayed children: A methodological note. Shriberg, L. D., & Smith, A. J. JSHR, 1983(26), 293-297.

The effects of presentation modality upon learning in a comprehension task using oral, manual, and dual mode stimulus cues. Karlan, G. R., Lloyd, L. L., & Fristoe, M. JSHR, 1983(26), 436-443.

The Indians have many terms for it: Stuttering among the Bannock-Shoshoni. Zimmermann, G., Liljeblad, S., Frank, A., & Cleeland, C. JSHR, 1983(26), 315-318.

Threshold inaccuracies in an elderly clinical population: Ear canal collapse as a possible cause. Randolph, L. J., & Schow, R. L. JSHR, 1983(26), 54-58.

Professional Training

Clinical Supervision and Interaction

An attributional model of supervisors' decision-making behavior in speech-language pathology. Roberts, J. E., & Naremore, R. C. JSHR, 1983(26), 537-549.

Observed differences between direct, indirect, and direct/indirect videotaped supervisory conferences. Brasseur, J. A., & Anderson, J. L. JSHR, 1983(26), 349-355.

HISTORICAL PERSPECTIVES

The Indians have many terms for it: Stuttering among the Bannock-Shoshoni. Zimmermann, G., Liljeblad, S., Frank, A., & Cleeland, C. JSHR, 1983(26), 315-318.

TITLE INDEX

A 3-year longitudinal study of school-aged children's fundamental frequencies. Bennett, S. JSHR, 1983(26), 137-141.

A cinefluorographic investigation of repeated fluent productions of stutterers in an adaptation procedure. Zimmermann, G. N., & Hanley, J. M. JSHR, 1983(26), 35-42.

A new head-mounted lip-jaw movement transduction system for the study of motor speech disorders. Barlow, S. M., Cole, K. J., & Abbs, J. H. JSHR, 1983(26), 283-288.

A noninvasive acoustic method using frequency perturbations and computer-generated vocal-tract shapes. Beckman, D. A., Wold, D. C., & Montague, J. C., Jr. JSHR, 1983(26), 304-314.

A reply to Brutten (Letter). Costello, J. M., & Hurst, M. R. JSHR, 1983(26), 156-159.

A reply to Costello and (Roemer) Hurst (Letter). Brutten, G. J. JSHR, 1983(26), 155-156.

Acoustic analysis of stutterers' fluent speech before and after therapy. Metz, D. E., Samar, V. J., & Sacco, P. R. JSHR, 1983(26), 531-536.

Acoustic patterns of apraxia of speech. Kent, R. D., & Rosenbek, J. C. JSHR, 1983(26), 231-249.

Airflow characteristics of fricative consonants produced by normally hearing and hearing-impaired speakers. Whitehead, R. L., & Barefoot, S. M. JSHR, 1983(26), 185-194.

Airflow characteristics of stop-plosive consonant productions of normal-speaking children. Trullinger, R. W., & Emanuel, F. W. JSHR, 1983(26), 202-208.

An accelerometric measure as a physical correlate of perceived hypernasality in speech. Horii, Y. JSHR, 1983(26), 476-480.

An attributional model of supervisors' decision-making behavior in speech-language pathology. Roberts, J. E., & Naremore, R. C. JSHR, 1983(26), 537-549.

Assessment of electromagnetic characteristics of the Willeford Central Auditory Processing Test Battery. Shea, S. L., & Raffin, M. J. JSHR, 1983(26), 18-21.

Assessment of oral-motor reflexes in stutterers and normal speakers: Preliminary observations. Smith, A., & Luschei, E. S. JSHR, 1983(26), 322-328.

Audiologic correlates of hearing handicap in the elderly. Weinstein, B. E., & Ventry, I. M. JSHR, 1983(26), 148-151.

Auditory and visual feedback of nasalization using a modified accelerometric method. Horii, Y., & Monroe, N. JSHR, 1983(26), 472-475.

Automatic analysis of voice fundamental frequency and intensity using a Visi-Pitch. Horii, Y. JSHR, 1983(26), 467-471.

Chest wall vibrations in singers. Sundberg, J. JSHR, 1983(26), 329-340.

Children's spontaneous and imitative speech: An acoustic-phonetic analysis. Bond, Z. S., & Korte, S. S. JSHR, 1983(26), 464-467.

Comparison of reading comprehension task performance for deaf and hearing subjects. Davey, B., LaSasso, C., & Macready, G. JSHR, 1983(26), 622-628.

Comparison of speech pathologists' and naive subjects' identification of synthesized /r-w/ continua. Sharf, D. J., & Benson, P. J. JSHR, 1983(26), 525-530.

"Compensatory articulation" under conditions of reduced afferent information: A dynamic formulation. Kelso, J. A. S., & Tuller, B. JSHR, 1983(26), 217-224.

Contextual effects in the measurement of hearing-impaired speakers' intelligibility. Sitler, R. W., Schiavetti, N., & Metz, D. E. JSHR, 1983(26), 30-34.

Control of upper airway structures during nonspeech tasks in normal and cerebral-palsied subjects: EMG findings. O'Dwyer, N. J., Neilson, P. D., Guitar, B. E., Quinn, P. T., & Andrews, G. JSHR, 1983(26), 162-170.

Deaf speakers' laryngeal behavior. Mahshie, J. J., & Conture, E. G. JSHR, 1983(26), 550-559.

Dichotic listening performance, language impairment, and lesion location in aphasic listeners. Niccum, N., Rubens, A. B., & Selnes, O. A. JSHR, 1983(26), 42-49.

Dichotic listening in good and poor readers. Dermody, P., Mackie, K., & Katsch, R. JSHR, 1983(26), 341-348.

Direct magnitude estimation and interval scaling of stuttering severity. Schiavetti, N., Sacco, P. R., Metz, D. E., & Sitler, R. W. JSHR, 1983(26), 568-573.

Effects of parental deafness and early exposure to manual communication on the cognitive skills, English language skill, and field independence of young deaf adults. Parasnis, I. JSHR, 1983(26), 588-594.

Effects of physiological aging on selected acoustic characteristics of voice. Ramig, L. A., & Ringel, R. L. JSHR, 1983(26), 22-30.

Effects of practice and instructional set on the measurement of lingual vibrotactile thresholds. Fucci, D., Small, L. H., & Petrosino, L. JSHR, 1983(26), 289-293.

Effects of segment and pause manipulations on the identification of treated stutterers. Prosek, R. A., & Runyan, C. M. JSHR, 1983(26), 510-516.

Effects of stimulus repetition rate and frequency on the auditory brainstem response in normal, cochlear-impaired, and VIII nerve/brainstem-impaired subjects. Fowler, C. G., & Noffsinger, D. JSHR, 1983(26), 560-567.

Effects of talker and of listener bias on stimulus dominance in dichotic listening. Speaks, C., Chesterman, M., & Belanger, S. JSHR, 1983(26), 378-382.

Evaluations of Blom-Singer tracheoesophageal puncture prostheses performance. Moon, J. B., Sullivan, J., & Weinberg, B. JSHR, 1983(26), 459-464.

Expectancy and heart rate as predictors of the speech performance of stutterers. Neumgartner, J. M., & Brutten, G. J. JSHR, 1983(26), 383-388.

Formant frequency fluctuation as an index of motor steadiness in the vocal tract. Gerratt, B. R. JSHR, 1983(26), 297-304.

Force transducers for the evaluation of labial, lingual, and mandibular function in disarthria. Barlow, S. M., & Abbs, J. H. JSHR, 1983(26), 616-621.

Hemisphericity in aphasic language recovery. Klingman, K. C., & Sussman, H. M. JSHR, 1983(26), 249-256.

In agreement with Goldsmith (Letter). Zimmermann, G. N. JSHR, 1983(26), 320.

Initiation versus execution time during manual and oral counting by stutterers. Borden, G. J. JSHR, 1983(26), 389-396.

Iris pigmentation and AC thresholds. Roche, A. F., Mukherjee, D., Chumlea, W. C., & Siervogel, R. M. JSHR, 1983(26), 151-154.

Language and speech behaviors of children with undue lead absorption: A review of the literature. Mayfield, S. A. JSHR, 1983(26), 362-368.

Letter to the editor: A clarification. Nicholls, G. JSHR, 1983(26), 320.

Linguistic processing and reaction time differences in stutterers and nonstutterers. Hand, C. R., & Haynes, W. O. JSHR, 1983(26), 181-185.

Magnitude estimation of oral cavity distances. Siegel, G. M., & Hanlon, J. M. JSHR, 1983(26), 574-578.

Mental rotation abilities in language-disordered children. Johnston, J. R., & Ellis Weismer, S. JSHR, 1983(26), 397-403.

Midfrequency dysfunction in listeners having high-frequency sensorineural hearing loss. Humes, L. E. JSHR, 1983(26), 425-435.

Observed differences between direct, indirect, and direct/indirect videotaped supervisory conferences. Brasseur, J. A., & Anderson, J. L. JSHR, 1983(26), 349-355.

Oral vs. manual tapping with delayed auditory feedback as measures of cerebral dominance. Elman, J. L. JSHR, 1983(26), 106-110.

Perception and production of approximant consonants by normal and articulation-delayed preschool children. Broen, P. A., Strange, W., Doyle, S. S., & Heller, J. H. JSHR, 1983(26), 601-608.

Perception of distorted "r" sounds in the synthesized speech of children and adults. Sharf, D. J., & Ohde, R. N. JSHR, 1983(26), 516-524.

Perception of intonational contrasts in alaryngeal speech. Gandour, J., & Weinberg, B. JSHR, 1983(26), 142-148.

Perception of lexical stress in alaryngeal speech. Gandour, J., Weinberg, B., & Garzione, B. JSHR, 1983(26), 418-424.

Perceptual organization of speech sounds by infants. Hillenbrand, J. JSHR, 1983(26), 268-282.

Performance characteristics for hearing aid microphone versus telephone and telephone/telecoil reception modes. Tannahill, J. C. JSHR, 1983(26), 195-201.

Performance of articulation-disordered children on language and perception measures. Smit, A. B., & Bernthal, J. E. JSHR, 1983(26), 124-136.

Performative and presuppositional skills in language-disordered and normal children. Rowan, L. E., Leonard, L. B., Chapman, K., & Weiss, A. L. JSHR, 1983(26), 97-106.

Phonatory and manual reaction times of stuttering and nonstuttering children. Till, J. A., Reich, A., Dickey, S., & Seiber, J. JSHR, 1983(26), 171-180.

Phonatory and manual reaction times of women with idiopathic spasmodic dysphonia. Reich, A., & Till, J. JSHR, 1983(26), 10-18.

Phonological correlates of middle-ear involvement in speech-delayed children: A methodological note. Shriberg, L. D., & Smith, A. J. JSHR, 1983(26), 293-297.

Prephonatory chest wall posturing in stutterers. Baken, R. J., McManus, D. A., & Cavallo, S. A. JSHR, 1983(26), 444-450.

Picture naming in language-impaired children. Leonard, L., Nippold, M., Kail, R., & Hale, C. JSHR, 1983(26), 609-615.

Relation between finger reaction time and voice reaction time in stuttering and nonstuttering children and adults. Cross, D. E., & Luper, H. L. JSHR, 1983(26), 356-361.

Selected acoustic characteristics of pathologic and normal speakers: A reanalysis (Letter). Kempster, G. B., & Kistler, D. J. JSHR, 1983(26), 159-160.

Selected acoustic characteristics of pathologic and normal speakers: A reply to Kempster and Kistler. Murry, T., & Doherty, E. T. JSHR, 1983(26), 160.

Some comments on "Articulatory dynamics of fluent utterances of stutterers and nonstutterers" (Letter). Goldsmith, H. JSHR, 1983(26), 319-320.

Spectrographic analysis of vowel and word duration in apraxia of speech. Collins, M., Rosenbek, J. C., & Wertz, R. T. JSHR, 1983(26), 224-230.

Speech identification in Spanish- and English-learning 2-year-olds. Oller, D. K., & Eilers, R. E. JSHR, 1983(26), 50-53.

Speech timing of phonologically disordered children: Voicing contrast of initial and final stop consonants. Catts, H. W., & Jensen, P. J. JSHR, 1983(26), 501-510.

Symbolic play and early language development in normal and mentally retarded children. Casby, M. W., & Ruder, K. F. JSHR, 1983(26), 404-411.

The accuracy of formant frequency measurements: A comparison of spectrographic analysis and linear prediction. Monsen, R. B., & Engebretson, A. M. JSHR, 1983(26), 89-97.

The annoyance of tinnitus and the noise required to mask it. Penner, M. J. JSHR, 1983(26), 73-76.

The contribution of perceptual learning to performance on the Repetition Task. Tomblin, J. B., & Quinn, M. A. JSHR, 1983(26), 369-372.

The determination of tinnitus loudness considering the effects of recruitment. Tyler, R. S., & Conrad-Armes, D. JSHR, 1983(26), 59-72.

The effect of manipulating phonation duration on stuttering. Ingham, R. J., Montgomery, J., & Ulliana, L. JSHR, 1983(26), 579-587.

The effects of presentation modality upon learning in a comprehension task using oral, manual, and dual mode stimulus cues. Karlan, G. R., Lloyd, L. L., & Fristoe, M. JSHR, 1983(26), 436-443.

The effects of time compression and time expansion on passage comprehension by elderly listeners. Schmitt, J. F. JSHR, 1983(26), 373-377.

The effects of varying lower-lip displacement on upper-lip movements: Implications for the coordination of speech movements. Folkins, J. W., & Linville, R. N. JSHR, 1983(26), 209-217.

The Indians have many terms for it: Stuttering among the Bannock-Shoshoni. Zimmermann, G., Liljeblad, S., Frank, A., & Cleeland, C. JSHR, 1983(26), 315-318.

The influence of production mode on the recall of signs in normal adult subjects. Lloyd, L. L., & Doherty, J. E. JSHR, 1983(26), 595-600.

The influence of stress, position, and utterance length on the pressure characteristics of English /p/ and /b/. Flege, J. E. JSHR, 1983(26), 111-118.

The intelligibility of deaf speech to experienced and inexperienced listeners. McGarr, N. S. JSHR, 1983(26), 451-458.

The irradiated larynx and voice: A perceptual study. Stoicheff, M. L., Ciampi, A., Passi, J. E., & Frederickson, J. M. JSHR, 1983(26), 482-485.

The perception of nonverbal vocal cues of emotional meaning by language-disordered and normal children. Courtright, J. A., & Courtright, I. C. JSHR, 1983(26), 412-417.

Three models of temporal summation evaluated using normal-hearing and hearing-impaired subjects. Gerken, G. M., Gunnarson, A. D., & Allen, C. M. JSHR, 1983(26), 256-262.

Threshold inaccuracies in an elderly clinical population: Ear canal collapse as a possible cause. Randolph, L. J., & Schow, R. L. JSHR, 1983(26), 54-58.

Tinnitus and neural activity. Salvi, R. J., & Ahroon, W. A. JSHR, 1983(26), 629-632.

Training generative repertoires within agent-action-object miniature linguistic systems with children. Goldstein, H. JSHR, 1983(26), 76-89.

Variability in matches to subjective tinnitus. Penner, M. J. JSHR, 1983(26), 263-267.

Visual evoked-response correlates of speech-reading performance in normal-hearing adults: A replication and factor analytic extension. Samar, V. J., & Sims, D. G. JSHR, 1983(26), 2-9.

Voice onset time in young and 70-year-old women. Neiman, G. S., Klich, R. J., & Shuey, E. M. JSHR, 1983(26), 118-123.

Voicing contrasts and their phonological implications in the speech of articulation-disordered children. Smit, A. B., & Bernthal, J. E. JSHR, 1983(26), 486-500.
